EDUCATION BACKGROUND

Harbin Institute of Technology (HITSZ) ***2023.06-2027.06***
School: Future Design School
Major: Digital Media Art. **GPA**: 87.6/100

RESEARCH & DESIGN PROJECTS

Core Member, **AIRTH: Emotion-Aware VR Companion Game** ***2025.10-2026.04***

- Designed an emotion-mapping system that translated user input into dynamic weather, environmental states, and AI-companion feedback, implemented VR interaction flows and playable mechanics in Unity.
- Gathered user needs and experience feedback, established user profiles and requirement frameworks, and formulated low-burden companion interaction concepts.
- Developed emotion mapping mechanisms, translated user states into virtual environments, weather, and character feedback, and shaped AI Agent, VR, and gamified interaction flows.
- Assembled 3D scenes, interaction prototypes, and visual systems, presented the complete digital therapeutic solution, showcased the project at the 22nd China (Shenzhen) International Cultural Industries Fair, and received ***National First Prize*** in the 20th China Creative Challenges Contest (China Creative Design Competition).
- Accepted as a peer-reviewed poster presentation at SIGGRAPH Asia 2026 Posters Program (Submission ID: pos_227s1), and recognized the project's innovation in immersive VR healing environments, emotion-aware interaction, and AI companionship design.

Individual, **From Fear to Care: Supportive Framing in Digital Health Advertising** ***2025.07-2025.11***

- Designed a mixed-method HCI study examining how risk- and support-framed health advertisements affect anxiety, comfort, perceived support, and psychological safety.
- Conducted a baseline survey (N=118) and a controlled framing experiment, analyzed quantitative data using Python, ANOVA, effect-size tests, and a linear mixed-effects model, alongside thematic coding of open-ended responses.
- Determined supportive framing improved short-term emotional outcomes while its effectiveness relied on information credibility, privacy transparency, and user control, published the study in the Proceedings of ICBDSS 2025.

Core Member, **Ancient Shu Civilization VR Serious Game** ***2024.03-2025.05***

- Identified the lack of interactivity in traditional cultural digital communication, researched VR-based digital cultural exhibitions, and explored immersive methods for presenting historical content in VR.
- Reviewed archaeological materials and museum documents related to the Ancient Shu Civilization, and converted historical information into gamified narratives, scene scripts, and interaction flows.
- Developed virtual environments with Unreal Engine, implemented Blueprint-based interaction logic, and optimized model performance, lighting effects, and runtime efficiency.
- Evaluated usability via task completion and interaction error observation, refined navigation and feedback mechanisms, delivered a playable exhibition demo, won a provincial design award, and showcased the project at the 22nd China (Shenzhen) International Cultural Industries Fair.

INTERN EXPERIENCE

Campus Ambassador, **Procter & Gamble (China) Co., Ltd.** ***2025.06-2026.06***

- Built the campus recruitment IP visual system, standardized visual guidelines, and enhanced brand recognition.
- Initiated gamified recruitment content strategies, crafted autumn recruitment countdown posts, integrated pixel-style visuals with interactive storytelling, and improved student engagement.
- Executed campus recruitment promotion activities, contributed to event planning, material development, and online-offline campaigns, and supported brand outreach among student communities.
- Partnered with brand mentors and a 12-member project team, advanced creative development, visual design, and project implementation, and earned recognition from the official guidance team.

Intern, **Dalian Xinzhi Ruixing Technology Co., Ltd.** ***2025.12-2026.02***

- Organized robotic 3D model resources and adapted digital assets for standardized project implementation.
- Evaluated model performance, visual quality, and compatibility issues, optimized model details and resource allocation, and enhanced rendering efficiency and presentation quality.

Zhang Kuoyan

Tel: +86-138-3213-0641, **Email**: carolsjz2023@163.com
Add: Jiaxingyuan Community, Wenyuan Street, Xinhua District, Shijiazhuang City, Hebei Province, China 050004

- Proposed 10+ model optimization solutions, applied digital media art expertise, and explored AI-driven approaches to integrate technology with visual design, user experience, and aesthetic expression.
- Improved digital content workflows and executed optimization tasks across project phases.

Intern, **Shenzhen Guan Shanyue Art Museum** ***2024.07-2024.09***

- Cataloged exhibition images, artist materials, and event records, developed a structured art archive, and captured multimedia assets for exhibitions and cultural events.
- Converted artist interviews and creative concepts into digital content, crafted materials for WeChat, short-video platforms, and exhibition promotion, and supported visual communication initiatives.
- Assisted with exhibition layout adjustments and facilitated on-site coordination across multiple exhibition projects.
- Customized interview and photography materials for different digital platforms, optimized cross-channel content delivery, and strengthened practical experience in digital communication and visual storytelling.

STUDENT WORK

Chairperson, **Student Media Center, HITSZ** ***2025.12-Present***

- Designed campus publicity plans, produced promotional videos, news releases, and visual materials, and delivered 40+ multimedia content pieces across planning, filming, editing, and publication processes.
- Directed publicity coverage for 50+ campus events, aligned video, news, and visual design teams.
- Mentored a 100 member cross-functional student team, and received the Outstanding Publicity Contributor honor.

Monitor, **Class 1 of Digital Media Art, HITSZ** ***2023.09-Present***

- Managed class administration and collective activities, and coordinated faculty-student communication
- Organized professional learning exchanges, practical activities, and class development initiatives, supported students' comprehensive development, and established communication mechanisms and teamwork models.
- Received the Outstanding Student Cadre (2023-2024, 2024-2025, 2025-2026) from HITSZ and "Club Star" honor for outstanding performance in student affairs.

EXCHANGE EXPERIENCE

University of Oxford ***2025.07-2025.08***

- **Oxford Prospects and Global Development Institute, Regent's Park College**
- Module: Literature, Language, Digital Culture and Communication (Grade A)
- Led the creation and production of a short film project and received the Bronze Award at the 2025 *ASIA TRANS-A DESIGN INNOVATION AWARD*.

PUBLICATION

- First Author, *From Fear to Care: Designing Supportive and Privacy-Conscious Health Advertising*, 26 Feb 2026, Proceedings of the 2025 6th International Conference on Big Data and Social Sciences, Published
- First Author, *AIRTH: An Immersive VR Healing Space Integrating Emotion Mapping and Non-judgmental AI Companionship*, 1–4 Dec 2026, ACM SIGGRAPH Asia 2026 Posters, Accepted for Presentation (Peer-Reviewed Poster).

HONOR & AWARDS

First-Class Scholarship, HITSZ ***2026.09***
National Third Prize, "Challenge Cup" Competition ***2026.06***
Silver Award, University-level, China International College Students' Innovation Competition 2025 ***2025.12***
Second Prize, National College Students' E-Commerce "Innovation, Creativity and Entrepreneurship" Challenge ***2025.12***
Second-Class Scholarship, HITSZ ***2025.06***
Third Prize, Chinese Collegiate Computing Competition ***2025.06***
Silver Award, Tsinghua University's Rural Revitalization Social Practice Program ***2024.06***

SKILLS

- **English**: IELTS: 7.0
- **Programming & Development:** Python, C#, HTML/CSS, Unity, Unreal Engine (Blueprints)
- **Design & Multimedia:** Photoshop, Illustrator, Premiere Pro, Procreate, AutoCAD
- **Research & Analytics:** SPSS, Tableau,
